Word From the Creator

Count Me In TT was created from a simple but serious reality I kept seeing as a tutor: many students can do mathematics, but they struggle with **speed, confidence, and recall**—especially under exam pressure. Too often, students begin to fear numbers, and that fear follows them long after school.

I wanted to build something that makes practice feel less like “work” and more like a challenge students actually want to return to. Count Me In TT turns times tables into a timed game where students compete **against their own best time**, track improvement, and gradually build fluency through repetition. Along the way, they develop key skills that support strong math performance—focus, accuracy, mental stamina, and pattern recognition.

Most importantly, this platform is **free for students, parents, and teachers**. I designed it this way on purpose. Every child deserves access to tools that can strengthen their foundation in mathematics, regardless of their background or resources. My hope is that Count Me In TT becomes a simple, enjoyable, and consistent part of learning—one that helps students improve their skills and, over time, develop a genuine **love for mathematics**.

What Count Me In TT is?

A free, web-based multiplication fluency platform that builds **speed + accuracy + confidence** through timed grid challenges.

What it's used for in schools

- Weekly fluency warm-up (5–10 mins)
- Class competitions (team-based or individual)
- Personal improvement tracking (beat your own best time)
- Optional school/class leaderboards and Hall of Fame recognition

What you need

- Any device (phone/tablet/laptop/desktop)
- Internet connection (Wi-Fi or data)
- Optional: projector/laptop for whole-class demos

✅ **Quick Link:** CountMeInTT.com

✅ **Best for classrooms:** Laptop + projector (optional)

What the Platform Can Do

Skills it strengthens

- Multiplication recall + fluency
- Focus under time pressure
- Pattern recognition and mental math
- Confidence and exam readiness
- Goal-setting and perseverance

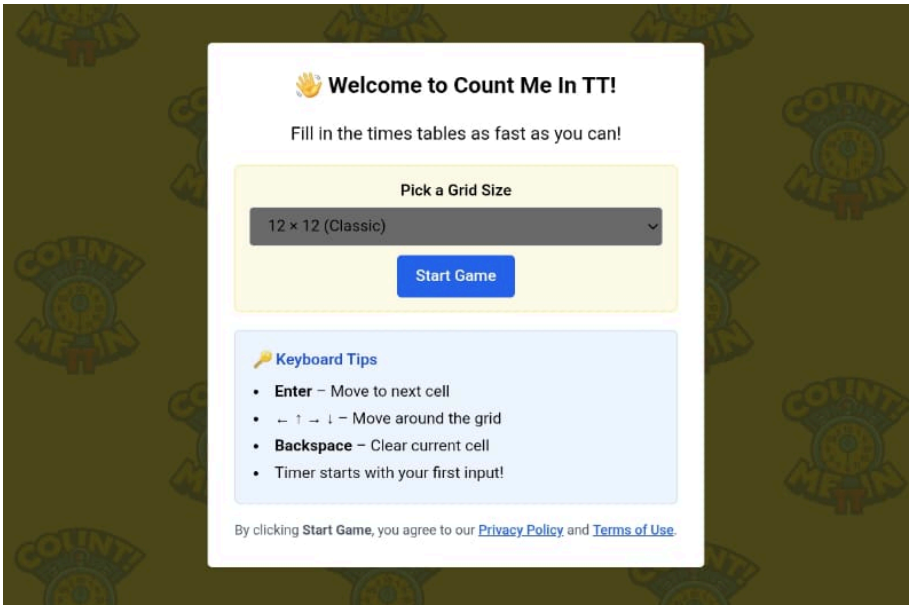
Core features at a glance

- Multiple grid levels (from beginner to pro)
- Timer starts automatically on first entry
- Accuracy required (must be correct to finish)
- Submission form logs performance
- Global leaderboard + school/class leaderboards
- Hall of Fame (monthly/term recognition)

Access & Device Use

Accessing the game

- Open any browser (Chrome/Safari recommended)
- Type: **CountMeInTT.com**
- Choose a grid and start



Supported Devices

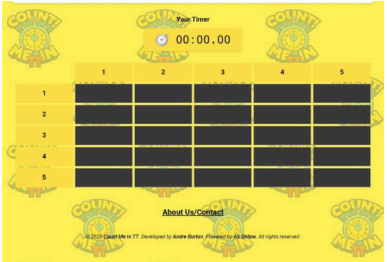
- Smartphones (Android/iPhone)
- Tablets (iPad/Android)
- Laptops
- Desktop computers

Best Device Tips

- **Phone:** rotate landscape if needed; use number keyboard
- **Tablet:** best balance of screen size + typing speed
- **Laptop/Desktop:** fastest typing, ideal for competitions

Understanding the Levels (The Grids)

5×5 Grid (Quick)



Best for: Std 1–2, beginners, warm-ups

Goal: build early recall and confidence

- *Recommended use: 5–10 minutes weekly*
- *Great for students who are in Std 2 or those still learning tables*

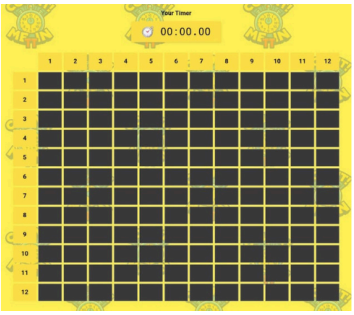
5×12 Grid (Trainer)

Best for: Std 2–4, transitioning to full mastery

Goal: strengthen full table range without overwhelming the student

- *Recommended use: 5–10 minutes weekly*
- *Great for students who are in Std 3-4 or those practicing pattern recognition*

12×12 Grid (Classic)

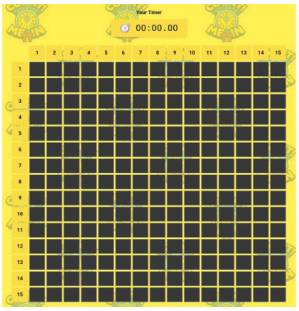


Best for: Std 4–Form 1, exam readiness

Goal: full mastery for speed and accuracy

- *Recommended use: 10 - 20 minutes weekly (daily usage for SEA students)*
- *Great for students who are in Std 4 - 5 (preparing for SEA)*

15×15 Grid (Pro)



Best for: advanced students, Form 1–5, high performers

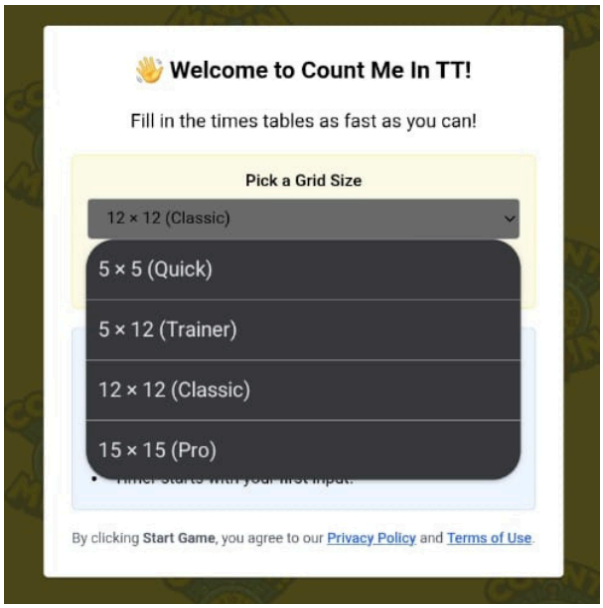
Goal: elite fluency + endurance + speed control

- *Recommended use: 10 - 20 minutes weekly*
- *Great for students who are in Secondary school or for primary school students that need a challenge*

How to Play (Step-by-Step)

Start the game

- Select grid
- When the student enters the **first answer**, the timer starts

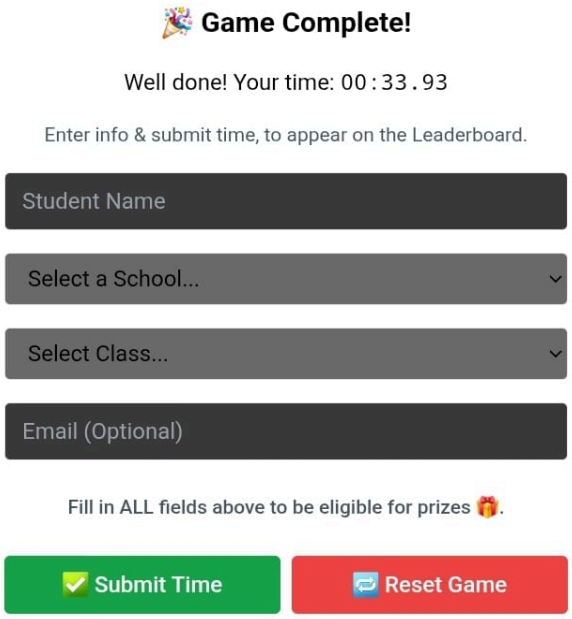


During play

- Correct = green
- Incorrect = red
- Square numbers in gold font
- Students must correct mistakes to complete

Finish and submit

- Timer stops only when all answers are correct
- Students submit their results to appear on leaderboards



Submitting Results (Important for School Use)

What students enter

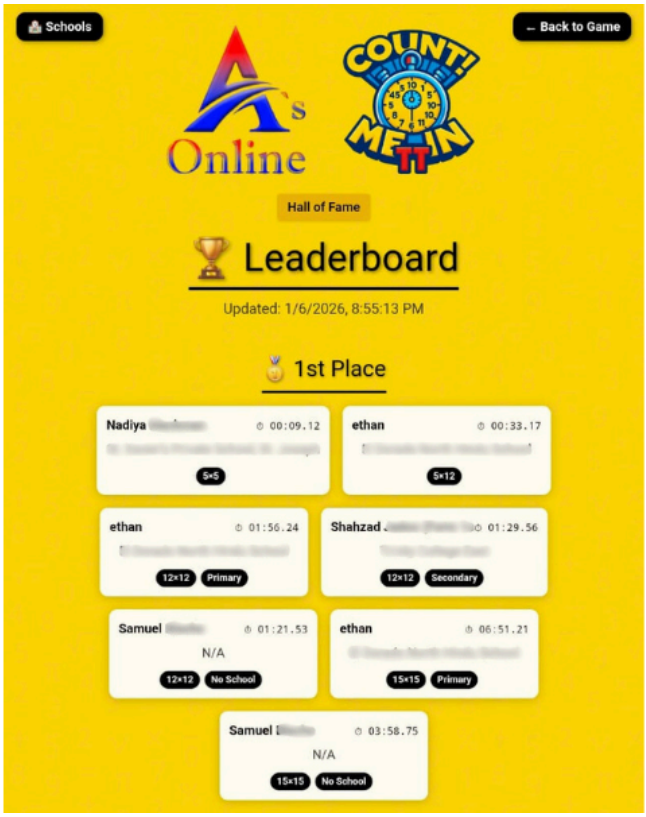
- Name (required)
- School (recommended)
- Email (optional but useful for prize contact)
- Class Level (recommended/required where applicable)
- Category (for larger grids)

Leaderboards Explained

Global Leaderboard

Shows the top times across Trinidad & Tobago by:

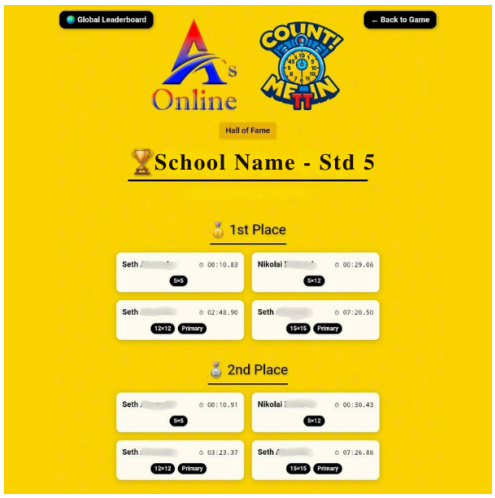
- Grid type
- Category (where relevant)
- Top 3 podium + additional rankings
- School Name



Schools Pages (School/Class Leaderboards)

Teachers can view results filtered by:

- School
- Class level (e.g., Prep 4, Std 4)
- Whole-school rankings



Hall of Fame (Recognition)

Purpose: celebrate consistent high performers

Options you can define:

- Monthly champions (per grid/category)

Classroom Implementation Guide

Suggested frequency

- **Best:** 1–2 times per week
- **Minimum effective:** once per week
- Students should log time each attempt

Suggested lesson flow (10–15 mins)

1. Warm-up (1 min)
2. Attempt 1 (timed)
3. Review weak tables (2 mins)
4. Attempt 2 (timed)
5. Record time + set target

Tracking & goal setting

- Record date and time
- Encourage students to set a target time
- Emphasize consistency—even on “off days”

Using the Tool to Identify Weak Tables

By observing where students slow down or hesitate, teachers can quickly identify:

- specific tables that need reinforcement
- patterns (e.g., 7s, 8s, 9s commonly slow)

This turns the game into both:

- a fluency builder, and
- a diagnostic tool

Privacy, Safety & Permissions

Parental/teacher permission

Students should use the platform with adult permission.

Data collected

Only what is needed for leaderboards:

- Name
- School
- Class (required for school filtering)
- Time score
- Email (optional)

Best practice for schools

- Use first name only (recommended)
- Avoid personal identifiers beyond school/class

Stay Connected

Follow **Count Me In TT** for updates, new grids, monthly challenges, school highlights, and prize announcements.

Facebook - Count Me In TT
